

Internship Penetrationtest

AWARE7 GmbH is a young, innovative cybersecurity company for everyone who wants to make cybersecurity understandable. We are an employer with plenty of room for self-development. In 2018, we spun off from the Institute for Internet Security in Gelsenkirchen. In 2018, we trained more than 15,000 users and conducted over 200 events to increase cybersecurity.

Are you creative, enthusiastic and innovative? Then you are exactly right with us!

We offer:

- Innovative technology
- Modern work environment
- Insight into customer projects
- Remote Office
- Slack Time

You Offer:

- Basic knowledge in the field of cybersecurity
- Basic knowledge of a programming language
- High interest in cybersecurity
- High communication competence
- Fluent in German/English writing and language

Your Tasks:

- Preparation, planning and conducting security tests
- Development of new test strategies
- Security research
- Presentation of results
